Help us determine Park and Recreation Needs for the next 10 Years

The purpose of the [2012 PROS Plan Update](#) is to estimate the future needs for park and recreation facilities and develop recommendations on how they should be implemented. The strategic planning process will be based the on public input from last year's [Vision 2030 Strategic Plan](#) where we heard loud and clear about how important the park and recreation systems are to the quality of life in Montgomery County.
